Certificate

of Best Practices to
protect the customers
health

The COVID-19 pandemic has brought a health, an economic and confidence crisis. For the health of your business, it is essential to take health protection measures that earn the customers and employees trust.

URS CERTIFICĂRI together with reputable specialists in the field of epidemiology and public health offers HoReCa companies the opportunity to obtain an fair evidence of compliance with applicable legal regulations and best practices in combating the risk of infection of customers and employees.

Thus, following an audit process carried out at the beneficiary's premises, the aim is to comply with the **Guide of best practices** in order to protect the health of customers.

If the audit is completed successfully, URS CERTIFICARI issues the TrustMark certificate proving to all interested parties (especially customers) the compliance with the requirements of the aforementioned guide.

The certification is voluntary, fast, transparent, valid for one year and includes quarterly supervisory audits.
